LoadLibrary failed with error 1114: A dynamic link library (DLL) initialization routine failed.

Chris Swart - 2020-05-27 - 2 Comments - in General Issues

LoadLibrary failed with error 1114: A dynamic link library (DLL) initialization routine failed.

Scenario

I cannot open one of the PROKON modules due to an error which states "LoadLibrary failed with error 1114: A dynamic link library (DLL) initialization routine failed."

Solution

Your PC has switchable graphics. This error occurs because of Intel Graphics Card Driver malfunction.

You have two options to resolve this problem:

Option 1: Try to install an older version of your Intel Graphic card Driver,

Option 2: Use your "High Performance" VGA for that specific program.

For AMD graphic cards: Right-click on your Desktop > Click "Configure Switchable Graphics" > Click on "Add Application" > Choose the module/program to be added to the list > From the drop-down list choose "High Performance" > Click on "Apply".
